

UNIVERSITY OF CALABRIA

Faculty of PHARMACY,
NUTRITIONAL AND HEALTH SCIENCES

XXIX National Congress
Italian Society of Pathology

in collaboration with:
American Society for Investigative Pathology

University of Calabria
Rende - Cosenza (Italy)
September 10-13 2008

University of Calabria, Rende – Cosenza

September 10th - 13th 2008

with the patronage of

MINISTERO DEL LAVORO, DELLA SALUTE E DELLE POLITICHE SOCIALI

**REGIONE CALABRIA
PROVINCIA di Cosenza
COMUNE di Cosenza
COMUNE di Rende
CAMERA DI COMMERCIO di Cosenza
FONDAZIONE CARICAL
SOVRAINTENDENZA per il Patrimonio
Storico, Artistico ed Etnoantropologico per la Calabria**

**ORDINE DEI MEDICI di Cosenza
ORDINE DEI FARMACISTI di Cosenza**

Planning Committee Chair (s)

Sebastiano Andò, (President of the meeting)
Saverio Ambesi Impiombato (President of Italian Society of Pathology)
Mark L. Tykocinsky (Past President of American Society for Investigative Pathology)
Linda Mc Manus (President of American Society for Investigative Pathology)

Scientific Program Committee

Sebastiano Andò, University of Calabria, Arcavacata of Rende (CS)
Saverio Ambesi Impiombato, University of Udine
Vincent Castronovo, University of Liege, Belgium
Suzanna A.W. Fuqua, University of Texas Graduate School of
Biomedical Sciences Cancer Biology
Martha B. Furie, Stony Brook University, USA
Carol Lange, University of Minnesota USA
Marcello Maggiolini, University of Calabria, Arcavacata of Rende (CS)
S. Paul Monga, University of Pittsburgh, USA
Annamaria Musti, University of Calabria, Arcavacata of Rende (CS)
Asma Nusrat, Emory University, USA
Marialuisa Panno University of Calabria, Arcavacata of Rende (CS)
Diego Sisci, University of Calabria, Arcavacata of Rende (CS)
Mark E. Sobel, American Society for Investigative Pathology
Gregory J. Tsongalis, Dartmouth Medical School, USA

Local Organizing Program Committee

*Saveria Aquila, Stefania Catalano, Vincenzo Pezzi
Daniela Bonofiglio, Rosalinda Bruno, Ivan Casaburi,
Francesca De Amicis, Francesca Giordano, Marilena Lanzino,
Stefania Marsico, Loredana Mauro, Rossella Sirianni*
University of Calabria, Arcavacata of Rende (CS)

All scientific sessions in the program are recognized from

for Medical Professionals, Biologists and Pharmacists
For further information call the Local Organizing Secretary

With the contribution of:

**APPLIED BIOSYSTEMS
BAYER
DBA ITALIA
KARNAK
PERKINELMER
PIROSSIGENO
ROCHE
TISSUE Gnostic
WYETH**

Special Thanks to:

**FERROVIE DELLA CALABRIA
PROMOCOSENZA
Az. Spec. C.C.I.A.
SACAL**

Local Organizing Secretary:

SCIENTIFIC PROGRAM

Wednesday, September 10th 2008

Aula Magna

16:00 Opening Ceremony

Plenary Lectures

Chairmen: L. Frati and G. Vecchio

16:30 *From experimental pathology bench to the patient's bedside: the contribution of experimental pathogenesis research to global health*

M. E. Sobel – Executive Officer of ASIP (USA)

17:10 *Nanotechnologies for the Enhancement of Human Health*

J. R. Baker – University of Michigan (USA)

Thursday, September 11th 2008

<i>Spazio Expo</i> 08:00 – 09:00 POSTER SESSION	Abstract Session Number: A 07	HP 01,05,07,08
IN 02,04,07,09,10,16,17,18	NB 06 RR 01,03,04,06,08,12,13,15,16,17	SC 03,06,09,12 ST 19,38,59 TIM 02,05,06

Aula Magna

09:00 Innate Immunity and Inflammation I

Chairs: M. Piccoli and L. Moretta

“NK receptors activation and signaling”

A. Santoni – University La Sapienza Roma (Italy)

“Granulocyte adhesion and cell signaling transduction”

G. Berton – University of Verona (Italy)

10:00 break

10:20 POSTER DISCUSSION

Innate Immunity and Tumor Immunity and Microenvironment

Chairs: A. Pompella and C. Caruso

IN 16. Role of Chemochines/Chemokine Receptors on Leukocyte Recruitment by Lymphatic Microvessel Endothelial Cells.

A. Dobrina, E. Vecile, E. Gustini, R. Cattaruzzi, A. Falcione, A. Dobrina
University of Trieste, Trieste, Italy.

IN 04. Polymorphisms of TLR4 and CD14 Genes and Alzheimer's Disease Risk.

C. R. Balistreri¹, M. P. Grimaldi², D. Lio², M. Chiappelli³, F. Licastro³, G. Colonna-Romano², G. Candore², C. Caruso²
¹Department of Biopathology and biomedical Methodologies, University of Palermo, Palermo, Italy.
²University of Palermo, Palermo, Italy. ³University of Bologna, Bologna, Italy.

IN 09. Meta-Analyses of Association between Cytokine Polymorphisms and Alzheimer's Disease

S. Vasto
Department of Biopathology and biomedical Methodologies, University of Palermo, Palermo, Italy

Aula Caldora

09:00 Host Pathogens

Chairs: F. Pontieri and U. Muscatello

“Recent advances in the immune response of *M. Tuberculosis*”

F. Dieli – University of Palermo (Italy)

“Assessing the HIV1 – human molecular interactions in vivo”

G. Scala – University of Catanzaro (Italy)

“The neutrophil-activating protein of *Helicobacter pylori* (HP-NAP) as an immune modulating agent”

M. de Bernard – Venetian Institute of Molecular Medicine (Italy)

10:30 break

10:50 POSTER DISCUSSION

Host Pathogens and Redox Reaction

Chairs: F. Gonano and M. Sobel

HP 08. The HIV-1 Matrix Protein P17 interferes with the Pi3Kinase-AKT Pathway in P17R-Expressing Cell Lines.

S. Marsico¹, R. Bruno¹, S. Fiorentini², A. Caruso²
¹University of Calabria, Arcavacata of Rende (CS), Italy. ²University of Brescia, Brescia, Italy.

HP 07. Molecular Cloning and Characterisation of *Helicobacter Pylori* L-Asparaginase: A Cytotoxic Factor with Potential Biomedical Applications

D. Cappelletti, M. V. Paschetto, S. Stivala, G. Valentini, L. Chiarelli, C. Scotti
University of Pavia, Pavia, Italy.

RR 01. Oxidative Stress Activates a Positive Feedback Loop between the γ - and β -Secretases Cleavages of the β -Amyloid Precursor Protein: Role in the Pathogenesis of Alzheimer's Disease.

M. Guglielmo², M. Aragno², R. Borghi², L. Giliberto³, M. Tabaton³, O. Danni², E. Tamagno¹
¹Department of Experimental Medicine and Oncology University of Torino, Torino, Italy. ²University of Torino, Torino, Italy. ³University of Genova, Genova, Italy.

IN 17. Human Airway Epithelial Cells Exhibit Contact-Mediated Cytotoxicity Upon Exposure to Multi-Walled Carbon Nanotubes: A Mechanism for Granuloma formation induced by Biopersistent Materials?
B. M. Rotoli, R. Gatti, M. G. Bianchi, P. P. Zanello, E. Bergamaschi, G. C. Gazzola, O. Bussolati *University of Parma, Parma, Italy.*

IN 18. Affinity Maturation of Antibodies in the 2-Phenyl-5-Oxazolone System.
C. Scotti¹, E. Gherardi² *¹University of Pavia, Pavia, Italy. ²MRC-LMB, ²Cambridge, United Kingdom (Great Britain).*

ST 19. Regulation of interleukin-8 Gene at a Ofstinct Site of its Promoter by C/EBP Homologous Protein in Prostaglandin E2-Treated Human T Cells.
M. Cucinotta¹, M. Visalli², G. De Grazia², A. Valenti², S. Loddo², L. Altucci³, D. Teti² *¹Department of Experimental Pathology and Microbiology, Policlinico Universitario, Messina, Italy. ²Policlinico Universitario, Messina, Italy. ³Second University of Napoli, , Italy.*

ST 59. Cannabinoid Receptor Activation Commits Colon Cancer Cells to Apoptosis Via Tumor Necrosis Factor A-Induced Ceramide Synthesis
L. Papucci, S. Capaccioli, F. Cianchi, N. Schiavone, M. Lulli, M. Donnini, A. Lapucci, L. Magnelli, E. Masini *University of Firenze, Firenze, Italy.*

TIM 05. Immunogenic Cell Death Induced by Idiotype-Specific Peptides Treatment of B-Cell Lymphoma.
C. Falcone¹, E. Iaccino¹, F. M. Tuccillo², M. Schiavone³, S. Cariglino⁴, A. De Franco⁴, I. Quinto¹, C. Palmieri¹, G. Scala¹ *¹University Magna Graecia, Catanzaro, Italy. ²Fondazione G.Pascale, Napoli, Italy. ³University of Napoli 'Federico II', Napoli, Italy. ⁴Biotechnology Research Center Italsistemi, Crotone, Italy.*

11:20 Innate Immunity and Inflammation II

Chairs: A. Mantovani and A. Santoni

“Neutrophils derived cytokines in inflammatory and immune response”

M. Cassatella – University of Verona (Italy)

“Chemokine decoy receptors”

M. Locati – University of Milano (Italy)

“Receptors signaling and migration pathways of dendritic cells”

S. Sozzani - University of Brescia (Italy)

12:50 lunch

ST 038. In Vitro Study of Diabetic Epithelial-Mesenchymal Transition of Renal Tubular Cells.

C. Bianchi, Invernizzi, S. Bombelli, C. Chinello, P. Brambilla, V. Angeloni, B. Torsello, F. Magni, M. Galli-Kienle, R. Perego *Department of Experimental Medicine- University Milano-Bicocca, Monza, Italy.*

RR 03. Immune Responses Triggered by Oxidative Stress in the Progression of Nonalcoholic Fatty Liver Disease.

M. Vidali², S. Sutti³, G. Occhino³, C. Bozzola³, R. Boldorini³, E. Albano¹ *¹Department of Medical Sciences, University, Novara, Italy. ²University 'A. Avogadro' of East Piedmont, Novara, Italy. ³University, Novara, Italy.*

RR 13. Heme Oxygenase-1 Expression: Possible Therapeutic Target in Neuroblastoma Cell Lines

A. Furfaro, B. Marengo, E. Balbis, J. R. Zumba Macay, C. De Ciucis, D. Cottalasso, U. Marinari, M. A. Pronzato, C. Domenicotti, N. Traverso *University of Genova, Genova, Italy.*

RR 15. MicroRNA Expression Profiling During Human Leukemic HL-60 Cell Differentiation Induced by 4-Hydroxynonenal, a Product of Lipid Peroxidation.

S. Pizzimenti¹, M. Ferracin², S. Silvia², C. Toaldo¹, P. Pettazoni¹, M. U. Dianzani¹, M. Negrini², G. Barrera¹ *¹Department of Medicine and Experimental Oncology, University of Torino, Torino, Italy. ²Department of Experimental and Diagnostic Medicine, University of Ferrara, Ferrara, Italy.*

RR 17. Identification of 4-Hydroxynonenal-Alpha-Eolase Adducts in HL-60 Human Leukemic Cells: Inhibition of Plasminogen Binding.

F. Gentile², S. Pizzimenti¹, A. Alessia², P. Pettazoni¹, D. D'Angelo³, G. Mamone⁴, P. Ferranti⁵, C. Toaldo¹, G. P. Cetrangolo², S. Fomirsano³, M. U. Dianzani¹, K. Uchida⁶, G. Barrera¹ *¹Department of Medicine and Experimental Oncology, University of Torino, Torino, Italy. ²Department of Science for Health, University of Molise, Campobasso, Italy. ³Department of Biology, Cellular and Molecular Pathology. University Federico II, , Italy. ⁴Science of Nutrition Institute, CNR, Avellino, Italy. ⁵Department of Science of Nutrition, University of Federico II, Portici, , Italy. ⁶Graduate School Biagricultural Science University Nagoja, Nagoja, Japan.*

11:50 ROUND TABLE

A controversial issue: Infectious Disease and Atherosclerosis

Chairs: A. Cassone and R. Fumarulo

“Chlamydomphila pneumoniae infection in cardiovascular disease”

A. Cassone – Istituto Superiore di Sanità, Roma (Italy)

“Chlamydia pneumoniae, Helicobacter pylori and T cells in Atherosclerosis”

M. M. D'Elisio – Department of Internal Medicine, Firenze (Italy)

“Atherosclerosis Genetics: Diabetes gene discovery through genetic and genomic approaches”

A. Attie – University of Wisconsin (USA)

12:50 lunch

14:00 Tumor Immunity and Microenvironment

Chairs: A. Salerno and E. Consiglio

“Inflammation and cancer”

A. Mantovani – University of Milano (Italy)

“Human NK cells: from the receptors to the cure of Leukemia”

L. Moretta – The Giannina Gaslini Institute of Genova (Italy)

“Onco-antigens as targets for preventive anti-tumor vaccination”

F. Cavallo – University of Torino (Italy)

“Matrix reload. The interface between tumor and cells of the immune system”

M. Colombo – The National Cancer Institute of Milano (Italy)

“NK cells and tumor progression”

E. Carbone – University of Catanzaro (Italy)

16:30 break

16:50 ORAL COMMUNICATIONS

Innate Immunity

Chairs: S. Sozzani and S. Formisano

IN 05. B7H Costimulation induces Caspase-1 Activation and IL-1 β Secretion in LPS-Activated Dendritic Cells and Modulates their Capacity to Drive T Cell Differentiation.

A. Chiochetti¹, S. Nicola¹, R. Mesturini¹, A. Rubartelli², U. Dianzani¹

¹University of Eastern Piedmont & IRCAD, Novara, Italy. ²Istituto Nazionale per la Ricerca sul Cancro, Genova, Italy.

IN 08. Down-Regulation of the Activating Receptor NKG2D by its Ligands Expressed on T Lymphocytes: A New Mechanism to Limit Cd8+ T Cell Immune Responses.

A. Zingoni, C. Cerboni, M. Ardolino, A. Santoni

University la Sapienza, Roma, Italy.

IN 14. Granulomatous Experimental Autoimmune Thyroiditis Induced by Immunization of CBA/J(H-2K) Mice with Hydrophobic Intermediates of the Dissociation/Unfolding of Human Thyroglobulin in Urea.

D. D'Angelo², A. Arcaro³, G. Cetrangolo³, C. Luise², F. Febbraio⁴, R. Nucci⁴, F. Fulciniti⁵, F. Gentile¹, S. Formisano⁶

¹Health Sciences, University of Molise, Campobasso, Italy. ²DBPCM-University of Federico II, Napoli, Italy. ³DiSpeS-University of Molise, Campobasso, Italy.

⁴IBP-CNR, , Italy. ⁵Istituto Nazionale Tumori Fondazione Pascale, , Italy.

⁶University of Federico II, Napoli, Italy.

IN 15. Interleukin-1 Receptor Antagonist in Ischemic Cardiomyopathy .

A. Dobrina¹, E. Vecile¹, A. Falcione¹, S. Crovella¹, N. Finato², E. Gustini¹, S. Secchiero¹, A. Abbate³

¹University of Trieste, Trieste, Italy, ²University of Udine, Udine, Italy,

³Virginia Commonwealth University, Richmond, VA, USA.

Aula Magna

17:50 Plenary Lecture

Chair: F. Bresciani

“Spatio-temporally-controlled targeted somatic mutagenesis in the mouse: functional analysis of nuclear receptor signaling”

D. Metzger – CNRS (Strasbourg)

14:00 ROUND TABLE

Redox Reactions in Human Pathophysiology

Chairs: U. Dianzani and J.Vina

Introduction

G. Poli – University of Torino (Italy)

“Redox regulation of transcription factors: Implication in human pathophysiology”

G. Mann – King’s College (UK)

“Mitochondrial redox changes in male and female during ageing”

J. Vina – University of Valencia (Spain)

“Redox modulation of protein kinase C isoforms in cell survival or death”

U. Marinari – University of Genova (Italy)

“Oxidative stress. F2-Isoprostanes and liver fibrosis”

M. Comporti – University of Siena (Italy)

“Oxygen species and cancer”

S.A. Fuqua – University of Houston (USA)

16:30 break

16:50 ORAL COMMUNICATIONS

Redox Reaction

Chairs: G.Poli and G. Mann

RR 05. PKC-Delta Dependent NADPH Oxidase Activation in Neuron Differentiation or Death.

M. Nitti, A. L. Furfaro, C. Cevasco, N. Traverso, U. M. Marinari, M. A. Pronzato, C. Domenicotti Department of Experimental Medicine - DIMES, University of Genova, Genova, Italy.

RR 11. Chemotaxis in Profibrogenic Human Hepatic Stellate Cells Requires Redox – Dependent Activation of C-Jun N-Terminal Kinase Isoforms 1 and 2 .

E. Novo², L. Valfrè Di Bonzo², S. Cannito², D. Povero², C. Busletta², C. Bertolani³, S. Colombatto², F. Marra³, M. Pinzani³, M. Parola¹

¹ University of Torino, Faculty of Medicine, Torino, Italy. ² Department of Medicine and Experimental Oncology, Torino, Italy. ³ Department of Internal Medicine, University of Firenze, Firenze, Italy.

RR 14. 4-Hydroxynonenal (HNE), a Product of Lipid Peroxidation, Inhibits Telomerase Activity in Caco-2, a Colon Cancer Cell Line, by the inhibition of E-Box Activity of the hTERT Promoter.

S. Pizzimenti¹, D. Berardi², C. Toaldo³, P. Pettazoni³, M. U. Dianzani³, E. Menegatti², G. Barrera³

¹ Medicine and Experimental Pathology, University of Torino, Torino, Italy.

² Department of Medicine and Experimental Oncology, Section of Clinical Pathology, Torino, Italy. ³ Department of Medicine and Experimental Oncology, Section of General Pathology, Torino, Italy.

RR 10. Comparison of Fibroblasts from Patients Affected by Pseudoxanthoma Elasticum (Pxe) or by β -Thalassemia with (β -Thal-PXE+) and without PXE-Like Clinical Manifestations (β -Thal-PXE-).

F. Boraldi², C. Paolinelli², M. I. Garcia Fernandez³, G. Annovi², D. Quaglino², R. Tiozzo², P. Cianciulli⁴, I. Ronchetti¹

¹ Biomedical Sciences, University of Modena and Reggio Emilia, Modena, Italy. ² University of Modena and Reggio Emilia, Modena, Italy. ³ University of Malaga, Malaga, Spain. ⁴ S.Eugenio Hospital, Roma, Italy.

End of Session Approximately at 18:35

Spazio Expo 08:00 – 09:00 POSTER SESSION Abstract Session Number: A 1,3,4,5,8,11 NB 1,2,3,4,5,7,8,9,11,12,13,14,16
NC 2,3,5,6,8,9,10 SC 1,2,4,10 ST 1,2,3,4,5,6,7,8,9,11,12,14,16,17,18,20,23,26,30,32,33,35,36,37,39,42,45,47,48,49,51,52,53,55,56,58,60

Aula Magna

09:00 SYMPOSIUM 1

Nutrition and Cancer

Chairs: V. Castronovo and E. Avvedimento

“Mitochondrial disease and the role of oxidative stress in cancer development and progression” **V. Castronovo** – University of Liege (Belgium)

“Nutrition and epigenetics – Foods that control gene expression” **Z. Herceg** – IARC, Lyon (France)

“Angionutrition: The role of nutrients in the control of tumor-associated angiogenesis” **A. Albini** – IRCCS Multimedica, Milano (Italy)

10:30 break

10:50 ROUND TABLE

Metabolic Syndrome and Cancer

Chairs: Z. Herceg and T. Pozzan

“Energy balance, adipocytokines and cancer” **V. Castronovo** – University of Liege (Belgium)

“Insulin resistance and prostatic cancer” **M. Pollak** – University of McGill (Canada)

“IGF1 and insulin receptors in cancer tissue” **A. Belfiore** – University of Catanzaro (Italy)

“Leptin and estrogen cross-talk in breast cancer” **S. Andò** – University of Calabria (Italy)

12:10 ORAL COMMUNICATIONS

Nutrition and Cancer

Chairs: A. Albini and A. Gulino

ST 27. The Role of Sgk1 in the Regulation of Sodium Absorption, Cell Proliferation, Survival and Differentiation.

N. Perrotti, R. Amato, M. Menniti, N. Perrotti - University of Catanzaro, Catanzaro, Italy.

NC 01. The Apoptotic Effects of Rosiglitazone and 9 Cis Retinoic Acid at Low Dose on Human Breast Carcinoma Cells as Markers of Benefit in Neoadjuvant Therapy of Mammary Cancer.

D. Bonofiglio¹, E. Cione¹, H. Qi¹, A. Pingitore¹, M. Perri¹, S. Catalano¹, M. Panno², G. Genchi¹, S. Andò²

¹Department of Pharmacology-Biology. ²Department of Cell Biology University of Calabria, Arcavacata of Rende (CS), Italy.

NC 07. Magnesium Deficiency Affects Mammary Epithelial Cell Proliferation: Involvement of Oxidative Stress.

V. Trapani², S. Ferrè³, J. Maier³, F. I. Wolf¹

¹General Pathology, University Cattolica del Sacro Cuore, Roma, Italy. ²University Cattolica del Sacro Cuore, Roma, Italy. ³University of Milano, Milano, Italy.

NC 13. Comparison of Colon Cancer and Breast Cancer Incidence Data from the U.S and U.K: Relationships with Folic Acid Fortification?

R. Green¹, P. Reddy², M. Hogarth², J. Miller²

¹Pathology and Laboratory Medicine, University of California, Davis, Sacramento, CA, USA. ²University of California, Davis, Sacramento, CA, USA.

13:10 lunch

14:00 SYMPOSIUM 2

Novel Biomarkers in Oncology

Chairs: M. Lisanti and M. Sobel

Introductory remarks M. E. Sobel – American Society for Investigative Pathology (USA)

“Epigenetic biomarkers in cancer diagnostics” **W. B. Coleman** – University of North Carolina at Chapel Hill (USA)

“Which way the WNT blows: stem cells in liver development and cancer” **P. Monga** – University of Pittsburgh (USA)

“In search of metastatic tumor cells” **G. J. Tsongalis** – Dartmouth Medical School (USA):

15:45 break

16:05 Awards

16:30 Plenary Lecture

Chair: S. Andò

“The potential role of micro RNA in the developing novel antitumoral pharmacological tools”

C. Croce – The Ohio State University/College of Medicine (USA)

End of Session Approximately at 17:15

Aula Magna

08:00 Plenary Lecture

Chair: S. Ambesi

“Wnt signaling and cancer”

S.A. Aaronson – Mount Sinai School of Medicine, New York (USA)

Aula Magna

08:45 ROUND TABLE

Targeted therapy against human kinases:

Have we made real progress in the treatment of Cancer?

Chairs: A. Messina and G. Tsongalis

“Suppressing EGFR tyrosine kinase activity in lung cancer: results and future perspectives”

F. Ciardiello – University of Napoli 2 (Italy)

“Inhibition of c-RET kinase activity for the treatment of thyroid cancer”

M. Santoro – University of Napoli (Italy)

“Targeting the Raf kinase in human malignancies molecular and translation issues”

P. Tagliaferri – University of Catanzaro (Italy)

“Inhibitors of the BCR-ABL kinase: have we cured CML?”

P. Vigneri – University of Catania (Italy)

10:15 break

Aula Magna

10:35 Plenary Lecture

Chair: S.P. Monga

“Ca²⁺ + signaling, from birth to death”

T. Pozzan – University of Padova (Italy)

Aula Caldora

08:45 ORAL COMMUNICATION

Host Pathogens

Chairs: B. Moncharmont and N. Perrotti

HP 02. HP-NAP, a Key Factor in the Helicobacter Pylori Chronic inflammation.

A. Cappon, L. Cancian, G. Codolo, M. De Bernard
University of Padova, Padova, Italy.

HP 06. Napa of Borrelia Burgdorferi Drives Th¹⁷ inflammation in Lyme Arthritis

G. Codolo¹, A. Amedei², A. Polenghi³, A. C. Steere⁴, C. T. Baldari⁵, G. Zanotti⁶, C. Montecucco¹, M. M. D'Elia², M. De Bernard³

¹ *Department of Biomedical Sciences, University of Padova, Padova, Italy.*

² *Department of Internal Medicine, University of Firenze, Firenze, Italy.*

³ *Venetian Institute of Molecular Medicine, Padova, Italy.* ⁴ *Center for Immunology and Inflammatory Diseases, Division of Rheumatol, Boston, MA, USA.* ⁵ *Department of Evolutionary Biology, University of Siena, Siena, Italy.*

⁶ *Department of Chemistry, University of Padova, Padova, Italy.*

HP 10. CPS Genes of Streptococcus Pneumoniae Modulate inflammatory Response of Neutrophils

P. Montemurro¹, G. Barbuti¹, M. Moschioni², R. Fumarolo³, P. De Rinaldis³, S. Censini² ¹ *University of Bari, Policlinico, Italy.* ² *Novartis Vaccines, Siena, Italy.* ³ *University of Bari, Bari, Italy.*

IN 01. Do Voltage-Gated Proton Channels Play a Role in the Microbicidal Activity of Neutrophils?

P. Dri, E. Declava, F. Defendi, A. Fasolo, R. Menegazzi
Department of Physiology and Pathology, University of Trieste, Trieste, Italy

09:45 POSTER DISCUSSION

Signal transduction I, Stem cells

Chairs: F. Gentile and F. Curcio

SC 01. Acute Myeloid Leukemia (AML) with T^{(11;19)(Q23;P13)} and Trisomy 8 shows Macrophagic Differentiation.

J. F. Wang, S. Patel, M. Deleo, J. M. Valigorsky
Berkshire Medical Center, Pittsfield, MA, USA.

ST 48. Increased Expression of Dystroglycan Inhibits Growth and Tumorigenicity of Human Prostate Cancer Cells by Sequestering Components of the ERK-MAP Kinase Cascade.

B. De Paola, M. Goracci, F. Rafanelli, A. Galiano, C. Graziani, A. Cittadini, A. Sgambato *University Cattolica Sacro Cuore, Roma, Italy.*

SC 02. The Developing Rodent Brain: Hormonal and Environmental Influences.

A. Colciago, L. Casati, P. Negri-Cesi, O. Mornati, F. Celotti
Department of Endocrinology, University of Milano, Milano, Italy.

ST 37. BCR-ABL Tyrosine Kinase Activity Modulates the Phosphorylation and the Localization of Interferon Regulatory Factor 5 (IRF-5) in Chronic Myeloid Leukemia Cells

M. Massimino, L. Manzella, M. Fallica, M. Consoli, A. Aloisi, P. Vigneri, A. Messina *Department of Biome. Sciences, Section of Gen. Pathology, University of Catania, Catania, Italy.*

10:15 break

11:20 SHORT TALKS

Signal transduction I

Chairs: S. Auricchio and C.Lange

“Regulation of the Src/Ras/Erk pathway by steroids in breast and prostate cancers”

G. Castoria University of Napoli (Italy)

“Integration of MAP kinase signaling and progesterone receptor action in breast cancer models”

C. Lange University of Minneapolis (USA)

“Hedgehog signaling pathway and brain tumors”

A. Gulino University “La Sapienza” Roma (Italy)

12:35 ORAL COMMUNICATIONS

Signal transduction I

Chairs: A. Attie and S.Fuqua

TIM 07. Human Breast Cancer-Associated Fibroblasts Show Caveolin-1 Down-Regulation and RB Tumor Suppressor Functional inactivation.

M. P.Lisanti, F. Sotgia, G. Bonuccelli, I. Mercier *Cancer Biology, Kimmel Cancer Center / Thomas Jefferson University, Philadelphia, USA.*

ST 57. Caveolin-1 as a Target of Therapeutic Activity of Retinoid Derivatives in Osteosarcoma and Glioblastoma in Vitro.

A. Gasperi-Campani¹, D. Baiocchi¹, L. Roncuzzi²

¹University of Bologna, Bologna, Italy. ²Istituto Ortopedico Rizzoli, Bologna, Italy.

ST 41. Is GPR30 a Promiscuous Mediator of Estrogen and Antiestrogen Signals ?

M. Maggiolini¹, S. Andò² *¹Department of Pharmacology-Biology ²Department of Cell Biology University of Calabria, Arcavacata of Rende (CS), Italy.*

ST 25. Role of Differential Phosphorylation of c-Jun N-Terminal Domain in Cancer Cell Death by Genotoxic Stress.

M. Vinciguerra², A. Madeo¹, L. Albanito¹, M. Maggiolini¹, A. M. Musti¹

¹Department of Pharmacology-Biology, University of Calabria, Rende (CS), Italy.

²Department of Biology and Cellular Pathology, University of Napoli, Italy.

13:35 lunch

11:20 ORAL COMMUNICATION

Signal transduction II

Chairs: W.Coleman and F. Stivala

ST 29. EDF-1, a Novel Player in Adipogenesis.

M. Leidi², M. Mariotti², J. A.M. Maier¹

¹Preclinical Sciences LITA Vialba, University of Milano, Milano, Italy.

²University of Milano, Milano, Italy.

ST 43. First Evidence of Non-Genomic Estradiol induced Up-Regulation of Aromatase Enzymatic Activity in MCF-7 Breast Cancer Cells.

S. Catalano¹, I. Barone¹, C. Giordano¹, P. Rizza¹, H. Qi¹, G. Gu¹,

D. Bonofiglio¹, S. Andò² *¹Department of Pharmacology-Biology*

²Department of Cell Biology University of Calabria, Arcavacata of Rende (CS), Italy

TIM 08. The Bisphosphonate Zoledronic Acid Affects the Angiogenic Phenotype of Bone Marrow Endothelial Cells in Multiple Myeloma Patients.

M. Coluccia, A. Boccarelli, R. Sasanelli, D. Giordano, P. De Rinaldis,

C. Scavelli, G. Di Pietro, A. Vacca

University of Bari, Bari, Italy.

ST 50. Tamoxifen and Epidermal Growth Factor induce the Aggregation of MCF7 Breast Cancer Cells Up-Regulating E-Cadherin Expression.

L. Mauro¹, M. Pellegrino¹, R. Lappano², A. Vivacqua², S. Andò¹,

M. Maggiolini² *¹Department of Cell Biology, ²Department*

Pharmacology-Biology, University of Calabria, Arcavacata of Rende (CS),

Italy.

ST 61. Bcl-2 Over-Expression in Human T-Cell Acute Lymphocytic Leukemias is Consequent to mRNA Stabilization by Increased Binding to Zeta-Crystallin, a New Bcl-2 ARE-Binding Protein.

A. Lapucci¹, S. Capaccioli¹, M. Lulli¹, M. Donnini¹, N. Schiavone¹, A.

Amedei¹, E. Witort¹, L. Papucci¹, S. Lazzarano¹, G. Brewer², D. Morello³

¹University of Firenze, Firenze, Italy. ²Robert Wood Johnson Med Sch,

Univ of Medicine and Dentistry of NJ, Piscataway, NJ, United States Minor Outlying Islands. ³Centre de Biologie du Développement, Toulouse, France.

ST 44. Androgen Receptor (AR) Inhibits Cyclin D1 Promoter

Activity. May AR be considered as an Oncosuppressor in Breast Cancer?

M. Lanzino¹, D. Sisci¹, C. Garofalo¹, C. Morelli¹, S. Catalano¹, I.

Casaburi¹, S. Andò² *¹Department of Pharmacology-Biology ²Department of*

Cell Biology, University of Calabria, Arcavacata of Rende (CS), Italy.

TIM 04. Immunopathological Alterations of the Prostate-Associated Lymphoid Tissue (PALT) by Androgen Ablation in Patients with Prostate Cancer.

C. Sorrentino, T. D'Antuono, S. Rosini, P. Musiani, E. Di Carlo

Department of Oncology and Neurosciences, ‘G. d’Annunzio’ University,

Chieti, Italy.

ST 46. Insulin Receptor Substrate 1 Modulates the Transcriptional Activity and the Stability of Androgen Receptor in Breast Cancer Cells.

18:15

End of meeting

SOCIAL EVENTS

Wednesday, September 10 , in RENDE

at: 19,00 (7:00p.m.) – University Campus grounds, Arcavacata of Rende

"Welcome Cocktail" : offered by the "**Chamber of Commerce**" of the Province of Cosenza

Jean Luis Notòn and his accordion *in concert*

He achieved his Diploma at the Music Conservatory of Lyon in France and is the winner of many national and international musical contests among which "Pinder O.R.T.F Trophy in "Paris". He has also produced software addressed to computerized music for the Ministry of Education. In 1991 he became demonstrator and consultant on MIDI for the famous Cavagnolo of Lyon, accordion manufacturer company. A talented and eclectic accordion player, he composed and played numerous movie sound tracks, music for children and also original pieces of music. He composed pieces of classical music for accordions too. The show varies from the "**french musette**" way to the **Piazzola**, from **jazz to classical music** and much more.

Thursday, September 11 , in RENDE

The Local Municipal Administration of Rende is pleased to offer to the welcomed participants to the Meeting :

at 20,30 (8:30 p.m.) "Garden theatre"

The Italian roots overseas : "L'Orda" – *Tales, songs, images of immigrants* .
with **Gian Antonio Stella**, **Gualtiero Bertelli** and "**La Compagnia delle acque**"

A Combination between music and monologues, narrating of many tales of sorrow, little and great heroic deeds, errors and xenophobia. The projection of remarkable images of which a great part unknown. The performance of songs that make up the sound track of the great Italian immigration .

following later

at 22,00 (10:00 p.m.) "Palagarden"

"Dinner"

Friday , 12 September, in COSENZA

at 20,00 (8:00p.m.) "Rendano" theatre

The Local Provincial Administration of Cosenza is pleased to offer to the welcomed participants to the Meeting:

"the music of Luis Bacalov"

*Concert of the **Roma Symphony Orchestra** directed by Maestro **L. Bacalov***

Luis Enrique Bacalov

(born in Buenos Aires March 30, 1933) is a prolific Argentine composer of film scores. Early on in his career, he composed scores for Spaghetti Western films, including Django, Storm Rider and The Price of Power. Bacalov has been nominated twice for Academy Awards: for Scoring of Music adaptation or treatment for The Gospel According to St. Matthew in 1967 and winning the award for Original Music Score for Il Postino in 1996. In the early 1970s, he collaborated with Italian progressive rock bands New Trolls, Osanna and Il Rovescio della Medaglia. In recent years, Bacalov has also composed significant works for chorus and orchestra, including his Misa Tango, a work setting in a Spanish-language adaptation of the classic liturgical Mass to the tango rhythms of his native Argentina. The standard Mass text has been significantly truncated in accordance with Bacalov's desire that the work appeal to those of all Abrahamic faiths: Christians, Muslims and Jews. All references to Christ except as the Lamb of God in the Agnus Dei have been deleted. The Credo has been reduced to "I believe in one God, the Almighty, maker of heaven and earth. Amen." Misa Tango debuted in Roma with Placido Domingo as solo Tenor in 2000 and was later recorded by Deutsche Grammophon with Placido Domingo (tenor), Ana María Martínez (mezzo-soprano) and Héctor Ulises Passarella (bandoneón), with whom he is rumored to have had a passionate love affair, as soloists. Bacalov recently composed Cantones de Nuestro Tiempos (Psalms for our Times): The Cambridge Psalms, a commissioned work with text from the Psalms of David for baritone and soprano soloists, orchestra and chorus, which had its world premiere at Sanders Theatre in Cambridge, Massachusetts in spring 2006 by the Cambridge Community Chorus (William E. Thomas, Music Director). Two of his songs were used in Quentin Tarantino's film Kill Bill.

The Program

"A ciascuno il suo" (Each to his own), *from the film directed by Elio Petri*

"Baires 1 Suite"

Paralelo a paralelo (from parallel to parallel)

Ricerca Baires 1 (finding Baires 1)

Tangana Ostinato (from Tango and Around)

"Concerto Grosso" *from the film the "Designated Victim" directed by Maurizio Lucidi*

The **concerto grosso**, Italian for *big concert* is a form of baroque music in which the musical material is passed between a small group of soloists (the concertino) and full orchestra (the *ripieno*)

Suduccion *from Assassination Tango by Robert Duvall*

Suite from "the Postman" *from the homonymous film directed by Michael Radford*

The postman – Beatrice - Bicycle Riding

"La città delle donne" (City of Women) *from the homonymous film directed by Federico Fellini*

Suite from "Vangelo secondo Matteo" (Gospel according to Mathew) *directed by Pier Paolo Pasolini*

Possessed 1 – Danza – Kolnidrei - Possessed 2

"Il grande duello" (the Great Duel) *film directed by Giancarlo Santi*

from **"Le juge"** by Philippe Lefevre

Flic Solitarie - Finale

at 21,30 (9:30p.m.) National Art Gallery "PALAZZO ARNONE":

Social Dinner

** participation at the social dinner will be available with the purchase of a ticket of 45,00 euro that has to be booked with the registration when filling out the housing form*

VENUE

University of Calabria - Arcavacata , Rende - Cosenza

How to reach University of Calabria

By Plane

The nearest air terminal is Lamezia Terme airport, also called Sant'Eufemia. Daily connections exist from Milano (Linate) and Roma (Fiumicino) to Lamezia Terme. This airport is at one hour's distance from Cosenza, which can be reached both by taxi (with an expense of about 50 Euro) and by bus (with an expense of about 5 Euro).

For Alitalia flight information please visit the following Web Site: www.alitalia.com

Lamezia Terme International Airport

By Train

The railway stations in Cosenza and Castiglione Cosentino (the nearest railway station to the university campus) are well connected to the main train station in Paola (18 min.) which, in turn, is connected to Roma and Milano by inter-city and Eurostar trains. Some inter-city trains are also connecting Roma to Cosenza and Castiglione Cosentino directly, without the need of changing train in Paola.

For Italian train schedule please visit the following Web Site: www.trenitalia.com

By Car

The most important road connection to Cosenza is the "A-3" motorway (Salerno - Reggio Calabria). The university area is located less than 1 Km away from the "Cosenza Nord" (Salerno- Reggio Calabria) exit. Exiting the motorway, we suggest taking the road for "Paola" and following the road indications for the "University".

How to reach the University campus from the city centre

By Bus

The university campus may be reached by university buses leaving each hour from the "Stazione Autolinee" (bus station) in Cosenza and the nearby the railway station of Castiglione Cosentino, in the town of Rende.

By Coach

There are daily connections, from Monday to Saturday, from Roma (Stazione Tiburtina) to Cosenza (Stazione Autolinee), done by private companies.

ECM

This meeting, intends to update a large area of interest for medical professionals and has been implemented in the continue education program in medicine; credits will be assigned for every single day of attendance. The registration rate permits the entrance to all the meeting rooms (room "Magna", room "Caldora", room "Consolidata") note that in order to obtain all credits the attendee must:

- register at the beginning of the work sessions at the registration stand of the selected room
- assure the attendance in the same room for all the duration of the work session
- feel out and deliver at the end of the work session both the event evaluation form and the learning evaluation questionnaire.

The attendee will receive the credits related to the attendance days.

Learning valuation method: multiple choice questionnaire

Check method: electronic system (badges with barcode)

Assigned Credits: sept. 11 aula Magna **5** sept. 11 aula Caldora **5** sept. 12 aula Magna **5** sept. 13 aula Magna **4**

REGISTRATION

Register by June 15th, 2008 to receive the discounted registration fee
There are three ways to register for the meeting: online, mail or by fax

On line: [SIP 2008 Registration](#) WWW.CS-CS.it

Mail: CS CENTRO SERVIZI Via delle Mimose, pal. Terrieri 87040 CASTROLIBERO (CS)

You must complete the [registration form](#) when sending your request via mail

Fax (24 hours): +39.0984.854540 You must complete the [registration form](#) when sending your request via fax.

EB Registration Fees	On or Before June 15	After June 15
Sponsoring/Participating Society Members	€ 250,00	€ 300,00
Non members	€ 300,00	€ 350,00
Training people	€ 200,00	€ 240,00

Registration rate include: working participation, meeting kit, certificate of attendance, coffee break, working lunch, ecm credits for the party entitled.

Payment Registration

by Bank Transfer

CS CENTRO SERVIZI SRL

to Banca Popolare di Crotone

HOUSING INFORMATION

Reservations must be received by September 1st, 2008

Sleeping room requests for all convention hotels will be handled by the
CS CENTRO SERVIZI Via delle Mimose, pal. Terrieri 87040 CASTROLIBERO (CS)
+39.0984.853005 FAX +39.0984.854540

This is a service provided to SIP attendees by sip 2008.ACCOMODATING YOU! .

You can make hotel reservations in any of the following ways:

On Line [SIP 2008 Reservation www.cs-cs.it](http://www.cs-cs.it)

Fax (24 hours): FAX +39.0984.854540 You must complete the **housing form** when sending your request via fax.

Mail: CS CENTRO SERVIZI Via delle Mimose, pal. Terrieri 87040 CASTROLIBERO (CS) –

You must complete the **housing form** when sending your request via mail.

TO GUARANTEE A ROOM:

All reservations are being coordinated by the housing bureau and NOT with the hotel directly. A credit card is required to guarantee your reservation. Credit card expiration dates must be later than June 15th 2008. To obtain the special meeting rates, you must make your reservations before JUNE 15th.

CONFIRMATIONS:

Confirmation will be e mailed, faxed, on line, or mailed to you from the housing bureau. Once your reservation has been secured with a credit card. You will not receive confirmation from your hotel. If you do not receive confirmation within 20 days of the congress date, please call the housing bureau at +39.0984.853005.

If credit card payment is not possible you may pay by postal transfer or by bank transfer to the housing bureau.

CHANGES/CANCELLATIONS:

All changes and cancellations to hotel reservations must be made on or before 10 August 2008 by contacting the housing bureau directly. Any cancellations made within 72 hours of the arrival date will result in forfeiture of one night room.
